Women Housed

We welcomed our first resident in November of 2017, with our second and third coming soon after. Their new home was freshly decorated and outfitted to help their transition. They've begun engaging in supportive programming and job searching.

51

Women Supported Behind The Walls

We have served these women with the "First 3's" Program, assisting them with pre and post-release programming, including meeting them at the gate and short-term essentials.

42

Volunteers

Volunteers have joined the program in various capacities, from being trained as mentors and partnered with residents, to helping collect items for release days, and even helping in Sisterhood Studio.

157

Donors

In our first full year of operation, we received \$162,000 in contributions, exceeding our goals and allowing us to begin housing women. We cannot thank these 157 donors enough for their incredible generosity.

31

Partner Organizations

Partner organizations are able to support clients with employment, mentoring, family reconciliation, and mental health and substance abuse treatments.
